Subject: [Brief, compelling subject line]

Dear [Mr./Ms. Surname],

I am writing to introduce myself and Johansson Engineering — a marine and mechanical engineering consultancy with over 40 years of combined field experience across shipboard systems, pressure equipment, and industrial process installations.

[Opening paragraph — establish relevance. Reference something specific about the recipient's company, a recent project, or an industry challenge that connects to your capabilities. Show that this is not a mass mailing.]

[Middle paragraph — your value proposition. What specific expertise or service would benefit them? Be concrete: mention relevant certifications, past project types, or technical specialisations. Keep it focused on what matters to them, not a full CV.]

[Optional third paragraph — a specific example or brief case study. One sentence about a comparable project you delivered, the challenge, and the outcome.]

I would welcome the opportunity to discuss how Johansson Engineering could support [Company Name]'s upcoming projects. I am available for a brief call or meeting at your convenience.

Thank you for your time and consideration.

Kind regards,

Nils Johansson
Johansson Engineering
