JOHANSSON ENGINEERING

01 — Who Is Responsible

One person must be in charge of this supervision program. The law requires a named individual — not a department, not a role. Write their name below and have both parties sign.

The Coordination Person

> This is the person who makes sure supervision happens, inspections are booked, and findings are acted on.

Contract / reference	

What The Coordination Person Must Do

The coordination person is responsible for making sure that:

#	RESPONSIBILITY	CHECK
1	This supervision program is followed	
2	Every supervision round is performed and documented	
3	Written operating instructions exist for all vessels	
4	Personnel doing supervision have documented competence	
5	Findings are acted on and corrective actions are closed	
6	Formal inspections are booked and performed on time	
7	This program is reviewed at least once per year (Doc 07)	
8	Equipment added or removed is updated in Doc 02	

> AFS 2017:3, 4 Kap. §14 and §17. Non-compliance: 10,000 — 100,000 SEK.

Signatures

By signing below, both parties confirm that a coordination person has been appointed and understands their responsibilities.
